Seminars on Immortal Classic Works of the Great Leader Comrade KIM IL SUNG Held

According to a report, the members of the "Study Group of the Juche Idea of Comrade Kim Il Sung" of Chileans in Algeria held a seminar on the great leader Comrade Kim Il Sung's immortal classic work **"The Democratic People's Republic of Korea Is the Banner of Freedom and Independence for Our People and a Powerful Weapon for Building Socialism and Communism"** of late.

Put up with due respect on the platform of the meeting hall was a portrait of the great revolutionary leader Comrade Kim Il Sung.

Amid the enthusiastic applause of the attendants, the seminar unanimously adopted a letter to the great leader Comrade Kim Il Sung.

At the seminar the chief and members of the study group made speeches.

Referring to the great theoretical and practical significance of the immortal classic work of the great leader, the speakers said unanimously: This work of President Kim Il Sung has become the militant banner powerfully inspiring the struggle of the revolutionary people the world over, because it gives the only correct theoretical and practical answer to the urgent problems arising in the international communist movement and the world revolution at the present time.

This work, they stressed, is an immortal classic work of our times which systematized and codified the unique idea and theory and preeminent strategic and tactical policies on the revolution and construction.

Dwelling on the victory won by the Korean people under the great leader's wise leadership, they pointed out that the experience gained in Korea is the precious one everybody should learn from.

The great leader's idea on the complete victory and ultimate victory of socialism is the entirely unique and brilliant idea no one has ever set forth, they pointed out and added: This is the programmatic guideline which clearly indicates the straight road of victory the revolutionary people of the world aspiring after the building of socialism and communism should follow without the slightest deviation.

The strategy on the anti-imperialist, anti-US struggle advanced by the great leader, they noted, is a revolutionary strategy to wipe the imperialists off the face of the earth.

They confirmed their determination to deeply study and master the immortal brilliant work of the great leader and make it their revolutionary pabulum.

Recently the members of the "Study Group of the Great Juche Idea of Comrade Kim Il Sung" of Latin American students studying in Europe also held a seminar on the great leader's immortal classic work **"The Peoples of the Third World Who Advance under the Uplifted Banner of Independence Will Certainly Win Their Revolutionary Cause."**

URT Government Delegation Visits Our Country

A government delegation of the United Republic of Tanzania headed by First Vice-President Aboud Jumbe paid an official, goodwill visit to our country from December 15 to 21 at the invitation of the Government of the Democratic People's Republic of Korea.

On the 17th the great leader Comrade Kim Il Sung, President of the DPRK, received the delegation and had a talk with the guests in a warm and friendly atmosphere and gave a luncheon in their honour.

During their stay in Korea, a banquet was arranged by the DPRK Administration Council, a Pyongyang city mass meeting held at the People's Palace of Culture and the revolutionary opera "The Song of Kumgang-san Mountain" staged at the Pyongyang Grand Theatre in their honour.

During its sojourn in our country, the delegation paid a visit to historic Mangyongdae, the Red Flag Mangyongdae Revolutionary School, the Museum of Victorious Fatherland Liberation War, the Kumsong Tractor Plant, the Korea-Tanzania Friendship Kumchon Co-operative Farm, the Pyongyang Students and Children's Palace, the National Economy Institute, the Pyongyang Metro and looked round various places in Pyongyang.

During their stay in our country, the guests were given a hearty welcome of our people.

In his speech delivered at the banquet on the 15th, Kang Ryang Uk, Vice-President of the DPRK, warmly welcomed the URT government delegation and said:

The current visit to our country of His Excellency Mr. First Vice-President Aboud Jumbe and his party constitutes a new great contribution to strengthening the cooperation and solidarity between the Korean and Tanzanian peoples.

He said:

The Korean people heartily rejoice over the successes the Tanzanian people have achieved in their struggle to create a new life under the correct leadership of President Julius K. Nyerere and in accordance with the ideals of the "Arusha Declaration" since the founding of the URT and sincerely wish them greater victories on their road towards socialism.

Pointing out that the Korean and Tanzanian peoples have become close comrades-in-arms and brothers in the struggle against imperialism, colonialism and racism and for the realization of their common aim—the country's independent development, he continued:

The great leader Comrade Kim Il Sung has taught:

"The Korean question must be solved by the Koreans themselves on the principle of national self-determination without any foreign interference."

For the solution of the problem of the independent and peaceful reunification of our country the "UN Command" stationed in south Korea should be dissolved and the US troops must get out of south Korea at once and a peace agreement should be concluded to replace the Armistice Agreement, in accordance with the resolutions on the Korean question adopted at the 30th session of the UN General Assembly and the Fifth Summit Conference of Non-Aligned Countries.

The entire Korean people will fight on in firm unity, enjoying the powerful support and encouragement of the peace-loving people the world over, and surely achieve the independent and peaceful reunification of the country, he said and stressed:

Availing myself of this opportunity, I express deep thanks to the Tanzanian Government and people for having always given active support and encouragement to our

The decree pointed out that he has rendered meritorious services to the flourish and progress of the Soviet Union and the promotion of the well-being of the people, supported the struggle of our people for the independent and peaceful reunification of the country and contributed to the development of the traditional relations of friendship and cooperation existing between the Korean and Soviet peoples.

Grand Report Meeting Celebrating 50th Anniv. of Formation of Saenal Juvenile Union Organized and Guided in Person by Marshal KIM IL SUNG, the Respected and Beloved Leader

A grand report meeting celebrating the 50th anniversary of the formation of the Saenal (New Day) Juvenile Union organized and led in person by the great leader Marshal Kim Il Sung was held at the February 8 House of Culture on the 14th.

Placed with due respect on the platform was a portrait of the great leader of our Party and our people Comrade Kim Il Sung, the sun of the nation and legendary hero.

Seen in the meeting hall were slogans "Long live the great leader Comrade Kim Il Sung!" and "Long live the glorious Workers' Party of Korea!" and a streamer "May the great leader Comrade Kim Il Sung enjoy a long life in good health".

The meeting hall was packed to capacity with school children and instructors of organizations of the League of Socialist Working Youth and the Juvenile Corps in the city.

The platform was taken by Comrades Kang Ryang Uk, So Chol, Rim Chun Chu, Yang Hyong Sop, O Baek Ryong, Li Yong Mu, Chong Jun Gi and Hwang Jang Yop, veteran anti-Japanese revolutionary fighters and responsible functionaries of working people's organizations, common education and Pyongyang municipal Party and power bodies.

Comrade Yang Hyong Sop made a report.

When the youth and children of our country were suffering many setbacks and undergoing twists and turns, unable to overcome the suppression by Japanese imperialism and the splitting manoeuvres of the factionalists, as they had no powerful revolutionary organization led by an outstanding leader, the great leader formed the Saenal Juvenile Union on December 15, 1926, the reporter noted, and continued:

The Saenal Juvenile Union was the first communistic children's revolutionary organization in our country. Its formation was a historic event which marked an epochal turn in independently developing the Korean communist youth and children's movement under the banner of Juche.

The Saenal Juvenile Union was a new type of revolutionary children's organization which struck its roots deep among the broad sections of youth, children and students. It was the first shining fruit borne of the struggle waged by the great leader to attain the goal of the Down-with-Imperialism Union.

The formation of the Saenal Juvenile Union made it possible to realize the far-reaching plan of the respected and beloved leader to rally as one the members of the new generation who were not imbued with the old ideas and prejudices and reliably bring them up as the reserve forces of the revolution and threw a brilliant ray of the dawn on the road ahead of the Korean youth and children's movement which had been groping in the dark.

With the formation of the Saenal Juvenile Union by the great leader, the youth and children's movement of our country came to have the first revolutionary fighting programme and embarked upon the road of new development under the banner of Juche.

The reporter went on:

The great leader Comrade Kim Il Sung clarified the fighting tasks of the Saenal Juvenile Union as follows:

Firstly, to struggle against Japanese imperialism for the independence of Korea and, to this end, the members of the union should acquire advanced social ideas and military knowledge.

Secondly, to struggle for national liberation and, at the same time, for class emancipation and, to this end, the members of the union should get rid of the old nationalist ideas of their parents and embrace new advanced ideas.

Thirdly, to strengthen anti-Japanese propaganda and enlightenment work among the compatriots to awaken them politically.

The fighting tasks of the Saenal Juvenile Union set forth by the great leader were the most revolutionary and militant fighting programme which correctly combined the immediate task of the youth and children's movement with its final goal on the basis of a scientific analysis of the socio-economic conditions and class relations of our country and the demand of our new generation.

They were also a Juche-based programme reflecting the interests of the entire Korean people for national and social emancipation and an original programme clearly expounding the essence and mission of the communist youth and children's movement.

Noting that the great leader attached weighty importance to the role of revolutionary publications in the education of the masses and political agitation and personally published the newspaper "Saenal" (New Day), the first Juche-based newspaper in our country, the reporter stressed: the publication of the newspaper was a historic event which ushered in a new era of the revolutionary publications of our country.

The reporter pointed out that after its formation the Saenal Juvenile Union under the wise leadership of the great revolutionary leader Comrade Kim Il Sung conducted brisk activities and thereby played a big role and performed undying exploits in the struggle of our people for the liberation of the country and the victory of the revolution and in the development of the youth and children's movement.

The reporter continued:

The undying exploits achieved by the Saenal Juvenile Union and the heroic feats performed by its members under the wise leadership of the respected and beloved leader Comrade Kim Il Sung, along with the glorious and brilliant revolutionary history of the great leader, were recorded in letters of gold in the history of the anti-Japanese national-liberation movement and the youth and children's movement of our country. Even today, they give a great national pride and revolutionary confidence to our people and youth and children and powerfully rouse them to a new struggle and, at the same time, serve as an inspiring example for the development of the revolutionary youth and children's movement in the world.

The half century long history of the Korean communist youth and children's movement which started with the formation of the Down-with-Imperialism Union and the Saenal Juvenile Union was the course of the shining victory of the great leader's original idea of the youth and children's movement and a history of the glorious struggle for bringing into bloom generation after generation the revolutionary cause of Juche started by the respected and beloved leader, the reporter said. He referred to the fact that the great leader has conducted energetic activities for the strengthening and development of youth and children's movement.

In particular, the reporter stressed, the great leader established the brilliant revolutionary tradition of the youth and children's movement of our country in the historic course of organizing and leading the Korean communist youth and children's movement to victory in the period of the arduous anti-Japanese revolutionary struggle.

He noted that on June 6, 1946, the Korean Juvenile Corps, a revolutionary mass organization of the children of our country, was founded to carry forward the revolutionary cause of Juche, inheriting the revolutionary tradition of the Saenal Juvenile Union and the Children's Corps. The founding of the Korean Juvenile Corps was a brilliant realization of the great leader's original conception of the communist youth and children's movement, the reporter said.

Referring to the fact that the great leader gave minute guidance for the strengthening and development of the organizations of the League of Socialist Working Youth and the Korean Juvenile Corps in each period of the development of the revolution, the reporter went on:

In his many immortal classic works and exceptionally important teachings given for the work with youth and children the great leader expounded in an allround way the essence and basic mission of the youth and children's movement and its task and principles of its activities in the transition period and wisely guided the movement to be the first in history to place the work with youth and children on a perfect ideological and theoretical basis of Juche and create an example for the world in the settlement of the youth and children's problem.

The reporter emphasized that the Korean communist youth and children's movement started and wisely led along the highway of victory and glory by the great leader is now being strengthened and developed onto a new, higher stage thanks to the tested leadership of the glorious Party Centre.

The proud path covered by the Korean communist youth and children's movement since the formation of the Saenal Juvenile Union is a history of the warm love and solicitude of the fatherly leader for the work with youth and children and for the rising generation, the reporter said. He referred to many moving stories about the deep love and solicitude of the great leader for the youth and children.

The reporter stressed: In the whole course of working out and implementing all the lines and policies of our Party with noble love for the rising generation, the great leader always directs the deepest considerations first of all to the youth and children and takes this as the consistent policy of our Party's activity.

Indeed, no one in the world is so happy and glorious as the Korean youth and children who are marching, with the wing of hope, the wing of revolution, spread wide, toward the bright future of communism, having the great leader as their father and enjoying his profound love, the reporter said in an emotion-charged tone.

In his report Comrade Yang Hyong Sop said that our youth and children are faced with the sacred revolutionary tasks to continue the revolution, holding ever higher the red banner of the Down-with-Imperialism Union and the Saenal Juvenile Union, to reunify the country and build a socialist and communist paradise in the 3,000-ri land. To carry out this honourable task with credit, the youth, children and students who will succeed to the revolution should prepare themselves more firmly as the reserve forces for the communist construction, he stressed.

Noting that the Korean youth and children's movement is a component part of the world youth and children's movement and the strengthening of solidarity with the world revolutionary forces is one of the important conditions for the nation-wide victory of the Korean revolution, he called for fighting persistently in firm unity with the progressive youth, children and students of the world advocating independence to build a new world without imperialism and without exploitation and oppression.

At the meeting, a representative of the Korean Juvenile Corps conveyed to Comrade Kang Ryang Uk a list of gifts reverentially presented to the respected and beloved leader Marshal Kim Il Sung on the occasion of the 50th anniversary of the formation of the Saenal Juvenile Union.

A pledge of the Korean Juvenile Corps to the respected and beloved father, the Marshal, was read by representatives of organizations of the Juvenile Corps from all parts of the country at the meeting.

Carrying the unanimous sentiments of the entire Juvenile Corps members, they confirmed their determination to hold in high esteem and follow the respected and beloved leader Marshal Kim Il Sung till the end of the sun and moon and eternally glorify the Korean Juvenile Corps as the Juvenile Corps of Marshal Kim Il Sung.

Report Meetings Held to Commemorate 15th Anniv. of Establishment of Taean Work System and New System of Agricultural Guidance

A report meeting of the Taean Electrical Machinery Plant marking the 15th anniversary of the establishment of the Taean work system by the great revolutionary leader Comrade Kim Il Sung and a Sukchon county report meeting celebrating the 15th anniversary of the establishment of the new system of agricultural guidance by him were held on the spot on December 15 and 17 respectively. The two systems were created by the great leader with originality.

Put up with due respect on the platform of each meeting place against the background of the national flag of the Republic was the portrait of the great leader of our Party and our people Comrade Kim Il Sung.

Hanging on the background was a model of Mt. Paekdu-san symbolic of the brilliant revolutionary traditions of our Party and the figures "1961-1976".

Seen in the meeting places were the slogans bearing the words "Long live the great leader Comrade Kim Il Sung!" and "Long live the glorious Workers' Party of Korea!" and streamers reading "May the great leader Comrade Kim Il Sung enjoy a long life in good health."

Attending the meetings together with working people on the spot were personages concerned of the central and local bodies.

The meetings began with the singing in chorus of the "Song of General Kim Il Sung."

The following is outlined in the report made at the meeting of the Taean Electrical Machinery Plant celebrating the 15th anniversary of the creation of the Taean work system:

In December 1961, 15 years ago, the great leader Comrade Kim Il Sung, through his historical on-the-spot guidance at the plant, set up the entirely new, original Taean work system for the first time in history.

The respected and beloved leader Comrade Kim Il Sung has said:

"The Taean work system is a system of economic management admirably suited to the nature of a socialist system, for it stipulates that the factories and enterprises conduct all their management activities under the collective leadership of Party committees and carry out their economic tasks by giving precedence to political work, infusing the producing masses with an enthusiasm for work; that superiors do everything they can to help their subordinates and that the economy be managed and operated in a scientific and rational way."

With the Taean work system created by the great leader, the economic institutions and enterprises were able to conduct their work under the collective leadership of Party committees and carry out well the revolutionary tasks before them by giving priority to political work and mobilizing the masses. And the work system made it possible for the higher body to help the lower, for the superior to assist those under him and for an experienced person to impart his knowledge to the less experienced and for all factories and workshops to closely cooperate with each other. Thus, a brilliant vista was opened to develop the cooperative production and to manage the economy in a scientific and rational way according to the objective laws of economic development.

The Taean work system established by the great leader is a form of economic management that applies the immortal Juche idea and the mass line on the basis of the idea and embodies the principle of collectivism "One for all and all for one."

The report pointed to the fact that thanks to the wise guidance of the great leader, the Taean work system has been fully introduced in all fields of the national economy and constantly developed in depth over the past 15 years, displaying its tremendous advantages and vitality. It laid emphasis on the necessity of establishing the Taean work system more thoroughly to bring about a new revolutionary upsurge in production.

Given below is main purport of the report to Sukchon county meeting held to mark the 15th anniversary of the establishment of the new system of agricultural guidance:

The creation of the new system of agricultural guidance owes entirely to the sagacious leadership of the great leader.

The respected and beloved leader Comrade Kim Il Sung has said:

"The system and methods of state guidance of co-operative farming acquire decisive significance in improving the management and operation of the co-operative economy and in strengthening the bonds between property of the whole people and co-operative property.

From the outset of agricultural co-operativization, our Party paid deep attention to improving and strengthening the state guidance of the co-operative farms and revised the system and methods of guidance in time to be adapted to the changing circumstances and conditions."

Following the completion of agricultural cooperativization the great leader worked heart and soul for the allround settlement of the questions of the guidance and management of the socialist rural economy to meet the new situation prevailing in the countryside.

He put forward the policy for establishing a new system of agricultural guidance by applying the Chongsan-ri spirit and Chongsan-ri method in the guidance and management of agriculture.

And on December 18, 1961 he visited Sukchon county where he personally set up a county cooperative farm management committee so that the rural economy could be directed by the industrial method of management.

By generalizing the experience of Sukchon county, the great leader took steps to form a cooperative farm management committee in each city and county throughout the country. Besides, he saw to it that provincial rural economy committees were newly organized and the Ministry of Agriculture was reorganized into the Agricultural Commission. Thus, a new well-regulated system of agricultural guidance ranging from the central authority down to the cities and counties was established.

The new system of agricultural guidance is a brilliant embodiment of the immortal Juche idea and the revolutionary mass line. The establishment of this system marked a revolutionary turn in the guidance and management of the socialist rural economy and it was a historic event which assumed a great significance in the promotion of the final solution of the rural question.

Noting that the new system of agricultural guidance showed its tremendous advantages and vitality in the past 15 years thanks to the clear-sighted leadership of the great leader, the report referred to the tasks to implement the five-point policy of nature-remaking and introduce innovations in all domains of agricultural production by giving fuller scope to the superiority of the new system of agricultural guidance.

The attendants of the meetings at Taean and Sukchon confirmed their determination to remain loyal to the great leader and the glorious Party by effecting a revolutionary turn in the socialist economic construction, bringing the advantages of the Juche-based system of economic management created by the great leader into fuller play.

The meetings closed with the singing in chorus of the song "Long Life and Good Health to the Great Leader."

people's just cause to bring about the independent and peaceful reunification of the country.

During their stay in our country the Tanzanian guests witnessed the advisability of the great leader Comrade Kim Il Sung's leadership and achievements our people have attained in the revolutionary struggle and construction work under his leadership and highly appreciated them and expressed full support to and firm solidarity with the just cause of our people.

After inspecting various places in Pyongyang, the head of the delegation had this to say:

President Kim Il Sung is, indeed, a genius leader.

We were deeply impressed by the achievements of the Korean people.

I extend congratulations to President Kim Il Sung, the respected and beloved, great leader and teacher, and to the Workers' Party of Korea and the Korean people on the fine and great successes.

It can be said that Korea is a beacon lighting the direction to be taken by us third world countries. We will follow the torch held by you.

On the 20th First Vice-President Aboud Jumbe made a speech at the Pyongyang mass meeting.

He said:

Juche has worked miracles in less than a generation in Korea and has fully justified itself.

Our visit has confirmed more than anything else could have done that your great success results from three important factors namely Juche, the wise leadership and personal guidance of your great leader, Marshal Kim Il Sung and the total involvement of the Korean people in implementing the dictates of your revolution in the letter and spirit of the Juche ideology.

He went on to say:

We are one with the Korean people in their efforts towards an independent, peaceful reunification of their country without any outside interference.

We also endorse unreservedly the resolution on Korea passed at the 30th session of the United Nations General Assembly which in short calls upon the creation of favourable conditions for the reunification of Korea by dissolving the "UN Command" and at the same time withdrawing from south Korea all foreign troops and their equipment which are under the UN flag.

The Korean Armistice Agreement should moreover be replaced by a peace agreement.

We strongly urge that the UN resolution be respected and implemented. At the same time Tanzania joins the people of the DPRK in urging the south Korean authorities to observe the principles of the North-South Joint Statement reached in 1972.

He spoke at the banquet he himself had arranged in connection with the delegation's visit to our country. In his speech he said:

We met Comrade Kim Il Sung, the respected and beloved, great leader, and learned from him many things both interesting and instructive.

During their stay in Korea, a talk was held in a friendly atmosphere between the government delegations of the two countries and a joint communique was made public in connection with the visit of the URT government delegation to the DPRK.

The URT government delegation's visit to our country marked a landmark in further strengthening and developing the friendship and solidarity between the peoples of the two countries formed in the joint struggle against imperialism and colonialism, for the consolidation of national independence and the building of a new society.

Everlasting will be the friendship between the Korean and Tanzanian peoples.

A large number of working people in Pyongyang warmly welcome the government delegation of the URT

Birth of Another Power Base

Now large hydro-electric and steam-power stations are under construction in different parts of our country to ensure a sufficient supply of electricity to the fast-progressing industry and to all other domains of the national economy.

Some time ago, the first-stage project of the Chongchon-gang Steam-Power Plant was completed in the western area of the country to start generating electricity.

The respected and beloved leader Comrade Kim Il Sung has taught:

"On the front of capital construction priority should be given to the construction of power stations in order to carry out rapidly the third-stage project of the Pukchang Steam-Power Plant and the construction of the Chongchon-gang Steam-Power Plant and the Taedong-gang Power Station."

Paying deep attention to the further consolidation of the power base of the country, the great leader chose the site for the Chongchon-gang Steam-Power Plant in the western area and indicated the orientation and ways for its construction and took all solicitous measures to finish the project in a short span of time.

The builders of the power base, who deem it their noble duty and highest honour to unconditionally carry the teachings of the respected and beloved leader through to the end, pushed forward the construction work with unusual zeal, energetically launching the Three-Revolution Red Flag Movement.

Notably, through a vigorous collective technical innovation movement the builders finished the first-stage project in a brief space of time.

The constructors of the plant are now making redoubled efforts to complete the second-stage project at an earlier date, consolidating their successes gained in the first-stage project.

Mass Meeting Held in Karachi on First Anniv. of Formation of PSCSKR

A mass meeting was held in Karachi on December 6 on the occasion of the first anniversary of the formation of the Pakistan Solidarity Committee for Supporting Korea's Reunification, according to a report.

A portrait of the great leader Comrade Kim Il Sung and a portrait of Prime Minister of the Islamic Republic of Pakistan Zulfikar Ali Bhutto were placed with due respect on the platform of the meeting.

The Chairman of the Pakistan Solidarity Committee for Supporting Korea's Reunification, leading cadres and public figures of Sind Province, attended the meeting together with a large crowd of people.

The Chairman of the Pakistan Solidarity Committee for Supporting Korea's Reunification and former Chairman of the Lawyers Association spoke at the meeting.

The Chairman of the Solidarity Committee said that the great leader Comrade Kim Il Sung put forward the most fair and aboveboard policy for the independent reunification of Korea.

He stressed:

Korea remains divided because the United States and the south Korean puppet clique are dead set against this policy.

The foreign troops must be withdrawn from south Korea and the resolution on the Korean question adopted at the 30th session of the UN General Assembly be implemented without delay.

The former Chairman of the Lawyers Association in his speech called upon the Pakistan Solidarity Committee for Supporting Korea's Reunification to mobilize a greater number of people in the struggle for implementing the UN resolution in future in order to extend militant solidarity to the Korean people in their cause of national reunification.

A resolution supporting the Korean people's cause of national reunification was adopted with enthusiastic applause of the attendants at the meeting.

The Pakistani people solemnly assure the Korean people that they will sincerely support the great and sacred struggle of the Korean people for the reunification, prosperity and development of the country and always stand firm on the side of the Korean people.

"Let's Open Fire for Resistance for Democracy and National Salvation!"

Propaganda Department of CC, RPR Issues Appeal

The Propaganda Department of the Central Committee of the Revolutionary Party for Reunification on December 12 issued an appeal headlined "Let's open fire for resistance for democracy and national salvation!" according to Radio "Voice of the Revolutionary Party for Reunification".

The appeal referred to the recent resistance struggle which Seoul University students waged against fascism and for democracy, ardently calling for defending the dignity and freedom of the nation, and to the brutal suppression of the masses by the Pak Jung Hi gangsters that has reached the crowning point. It disclosed the stern reality that democracy and civil rights are totally denied in south Korea and the US imperialists and the Japanese militarists run roughshod over there.

The appeal said: "Let's rise and fight rather than sit and wait for death! Let's open fire for resistance for democracy and national salvation!" Then it called upon the one million students, the workers and peasants of the whole country, the officers and men of the ROK army, workers and peasants in military uniform and intellectuals, democratic figures and believers and various parties and groupings and figures of all circles who are concerned for the future of the nation to resolutely join the nation-wide resistance for democracy in order to establish a democratic coalition government and achieve independent reunification.

The cause of south Korean revolution is invincible, the appeal noted, and pointed out:

The immortal Juche idea of the great leader Comrade Kim Il Sung, the peerless legendary hero, genius of revolution and supreme personifier of the people's will, brightly illuminates the road ahead of us and the Revolutionary Party for Reunification with great Kimilsungism as its only guiding idea leads our people to victory.

ENGINEERING INDUSTRY SERVES FOR EARLIER IMPLEMENTATION OF FIVE-POINT POLICY FOR NATURE-REMAKING

A Visit to Kumsong Tractor Plant

The great leader Comrade Kim Il Sung has said:

"We set up tractor production centres which will enable us to allot seven to eight tractors per 100 *chongbo* of land under cultivation within two or three years and 10-12 in the near future."

Today solid tractor production centres conducive to the modernization of agriculture are set up in our country under the wise guidance of the respected and beloved leader who is concerned about relieving our farmers liberated from exploitation and oppression even from arduous labour.

Not long ago we had a chance to visit the Kumsong Tractor Plant, a large-scale modern tractor production base which plays a big part in effecting comprehensive mechanization of agriculture.

Guided by the head of the plant's technical research room, we went to see the modernized foundry and steel casting shop where heat-affected and harmful labour and heavy work disappeared completely. We made the rounds of work sites where materials for products were being turned out. Then we dropped in at the processing shop called a "palace of automation" in the plant. The interior presented a vast "sea of machines". It was a sight which left the first visitors to this shop spellbound. Through the roof for lighting, clear and soft rays faltered, and the walls and machines were perfectly harmonized in colour, well blended with the reflection of the glossy man-made marble floor, so the inside of the shop reminded us of the interior of a palace.

The spacious shop has automatic processing and assembly lines for production of "Chollima" and "Pungnyon" tractors and all operations for haulage of loads inside the shop are done by aerial ropeway-style conveyer, ground chain conveyer and underground belt conveyer.

What merited our attention was the automatic processing line of "Chollima" tractor gearboxes that consisted of scores of automatic machines with the trademarks of the Huichon Machine Tool Plant. When the gearbox housings carried by chain conveyer are lifted on to the transmission stand of the automatic processing line and transferred to the first milling machine in the twinkling of an eye, which starts planing them.

The processing of gearboxes goes over from one stage to another. Moving along the automatic processing line installed in a 40-odd m. long section, the gearboxes are processed and manufactured, without use of hand even once, as exactly as to the numerical value set in the blueprint.

In this processing line, a single operator is enough to undertake all automated jobs, from the working upon products and their checkup to the cleaning of machines and disposal of iron shavings.

The processing shop has scores of such processing lines all facilities of which are products from machine factories in different parts of the country.

The head of the technical research room told us: "Our plant which can be called an epitome of the progress of our engineering industry is a self-reliant factory built thanks to the great leader's well-advised guidance and solicitude." Here is a brief account he gave us.

It was when our country was faced with the important task for comprehensive mechanization of agricultural production. The great leader gave instructions to reconstruct and expand the factory into a large-scale modern tractor-producing centre and he came to the spot in person and selected even the site for the processing shop to be built. And he made certain that the machine factories all over the country produced facilities for the processing shop and taught that minor installations for the automatic line should be made by our own efforts and in conformity with our actual conditions. Thus, in a slightly over half a year the factory was reconstructed and expanded into a large-scale modern tractor plant. This is how the workers could increase the production capacity ten times, their work becoming still lighter.

Hearing this story we saw a variety of processed products being carried by aerial transport line to be put out as finished goods on the automatic processing line before they are hauled to the assembly line.

All the processing, carrying and assembly lines inside the shop were in smooth operation under the general production command system based on wireless communication and industrial TV.

When we proceeded to the general assembly line of "Chollima" tractor, a number of tractors which were in different stages of assembling were moving in a file on the assembly rack.

In front of the assembly rack which was in rhythmical movement, workers were performing the assembling work with amazingly accurate and quick motion.

According to the chief engineer, the workers and technicians of the plant have been conducting the vigorous "Three-Revolution Red Flag Movement" with vim and vigour. In cooperation with the three-revolution team members, they are chalking up signal results in the production of tractors helpful to the implementation of the five-point nature-remaking policy advanced by the great leader. As if keeping pace with the workers afire with great enthusiasm for increased production new "Chollima" and "Pungnyon" tractors roll out of the respective assembly line with roar.

Through the present magnificence of this plant which had to manufacture the first tractor with insufficient facilities and a small number of technicians in 1958, we could vividly see the might of our engineering industry which made a leaping development.

This stride forward is not the case with the Kumsong Tractor Plant alone. The September 25 Tractor Factory and other tractor production bases have also made progress.

We left the plant in the firm belief that the construction of a socialist countryside where comprehensive mechanization of agriculture is completed will be greatly accelerated thanks to such reliable tractor-producing centres set up by the great leader.

Workers of the Kumsong Tractor Plant bring about innovation in the production of tractors to be used for gigantic nature-remaking projects

POWERFUL SUPPORT FOR NATURE-REMAKING WORK

According to the five-point policy of nature-remaking advanced by the great leader gigantic nature-remaking projects are now undertaken in our country to irrigate 400,000 more *chongbo* of non-paddy fields in the in-between and mountainous areas and build 150,000-200,000 *chongbo* of sloping ground into terraced fields in a few years to come. The projects include land adjustment, land amelioration, afforestation and water conservancy and reclamation of tideland.

The whole Party, the whole country and the entire people are involved in these undertakings of enormous scale. In particular, the workers in the realm of machine industry and the three-revolution team members sent to this domain are bringing about a big innovation in producing and supplying machines and equipment for the nature-remaking projects by conducting more dynamically the Three-Revolution Red Flag Movement.

The great leader Comrade Kim Il Sung has taught:

"In the field of machine industry we should produce and supply a sufficient amount of machines and equipment needful for nature-remaking projects."

In wholehearted response to the highly important teaching of the great leader, the workers in North Hamgyong Province have already sent more than 1,200 pumps, over 1,100 small water pumps "Hyoksin" and many sprinklers to the countryside and are turning out transformers and cast iron pipes in large quantities.

Factories and enterprises in Kangwon Province are all taking an active part in such undertakings.

The machine-makers of this province in whose veins runs only the Juche-type blood are fulfilling their daily plan more than 1.3 times in the production of machines and equipment for the irrigation of non-paddy fields, well aware that thorough implementation of the grand nature-remaking policy set forth by the great leader is the way to attain the goal of 10 million tons of grain ahead of schedule.

Meanwhile, the workers of the Rakwon Machine Plant, one of the biggest of its kind in our country, are making innovation in the production of excavators, digging machines and water pumps by positively applying new techniques in production.

Besides, the production of machines and equipment needed for nature-remaking is being boosted also by the machine factories in different parts of the country, including the Sungri Automobile Combine, the "Chungsong" Tractor Plant and the Taean Electrical Machinery Factory.

Thus, these days the workers in the domain of machine industry are sending a larger number of bulldozers, excavators, tractors, electric motors, water pumps, sprinklers, winches and various other machines and equipment and spare parts to the construction sites.

Thanks to the burning loyalty and revolutionary spirit of the working class of our country who are determined to carry out successfully the five-point nature-remaking policy put forward by the great leader, the huge nature-remaking work is making headway with greater results.

Kim Yong U

Wholeheartedly upholding the five-point nature-remaking policy advanced by the great leader Comrade Kim Il Sung, the workers in the domain of engineering industry throughout the country are turning out machines and equipment for nature-remaking projects.

As their hearts glow with loyalty to greatly contribute to attaining the goal of 10 million tons of grain, the production of water pumps, electric motors and various other machines is on the steady, rapid increase.

Korea Advances under Uplifted Banner of Three Revolutions

Korea of Juche is making steady progress in the revolution and construction by vigorously waging the ideological, technical and cultural revolutions along the road pointed to by the great leader.

The respected and beloved leader Comrade Kim Il Sung has taught:

"The ideological, technical and cultural revolutions are major revolutionary tasks confronting our Party and people at the present time; and the successful carrying out of the three revolutions is precisely the decisive guarantee for victory in all work."

Under the banner of the three revolutions, to begin with, the ideological revolution has been vigorously promoted, bringing about a great turn in the political and ideological life of the people.

Amidst the struggle for implementing the Party's militant programme for dyeing all of society with the Juche idea, the revolutionary idea, of the great leader Comrade Kim Il Sung the working people have grown to be genuine dependable revolutionaries of Juche type possessed of the purest and most intense loyalty and the revolutionary ranks become loyal and invincible contingents advancing dynamically along the highway of revolution, united ever closer around the great leader.

Our people are winning proud victories in carrying out the three major tasks of the technical revolution by successfully implementing the tasks of the technical revolution.

Large-size, modern and high-speed equipment and diverse transport means have been applied in the mining industry where a great deal of tough labour still exists. Mechanization, semi-automation, automation, telemechanics and industrial TVs have been widely introduced in the production processes of different domains of the national economy.

As a result, the level of technical equipment of the national economy went up, the production grew rapidly, the disparity between heavy and light labour was markedly narrowed down, labour in excessive heat and harmful work were basically eliminated and a great stride forward has been made in the historic cause of freeing the working people from hard and labour-consuming work.

With the powerful advance of the technical revolution in the countryside the distinction between agricultural and industrial labour has been narrowed down and our agriculture has entered a new stage of modernization and industrialization.

Shining successes have been made in the cultural revolution and in the efforts for improving the material and cultural standards of the people.

The eleven-year compulsory education, the best educational system, was introduced full scale and a large contingent of one million intellectuals trained and Juche has been established more firmly in the development of science and technology and a popular and revolutionary art is in full bloom.

Thanks to the great benevolence of the fatherly leader the taxation, a legacy of the old society, was abolished for the first time in history, the prices of mass consumption goods were cut down drastically, bus service was introduced in rural districts, village clinics were converted into hospitals and a great advance has been made in the efforts for introducing water service in the rural areas and covering the whole country with a telecasting network. The result is that the living standards of the urban and rural population have been steadily raised on the basis of equality.

With the vigorous advance of the three revolutions a giant stride forward has thus been made in the revolution and construction.

Under the wise guidance of the great leader our working class performed such a spectacular feat as fulfilling the Six-Year Plan one year and four months ahead of schedule. The agricultural working people produced more than seven million tons of grain already in 1974, hitting the Six-Year Plan targets two years ahead of schedule. This year they reaped the harvest richest ever in history despite the strong influence of the cold front, attaining the goal of more than eight million tons of grain.

Through the preschedule fulfilment of the Six-Year Plan and the drive for consolidating this success the Juche character of the industry has been further strengthened and industrialization and modernization of agriculture made brisk headway. As a result, our independent national economy is developing incessantly at a high rate, unaffected by any world-wide economic upheaval.

All this represents a shining victory of the great leader's original line and policies and his outstanding and tested leadership.

A particular mention should be made of the fact that the respected and beloved leader initiated the three-revolution team movement and saw that it was waged throughout the country. This was an important measure that occasioned an epochal turn in the carrying out of the three revolutions, ideological, technical and cultural.

True to the great leader's noble intention to carry out the three revolutions as a movement of the whole Party and the entire people the glorious Party Centre put forward the revolutionary slogan "Let us meet the requirements of Juche in ideology, technology and culture!" reflecting the urgent demand of the time when the dyeing of the whole society in the Juche idea has come to the fore and gave a historical beginning to the Three-Revolution Red Flag Movement and is leading our people to conduct more vigorously the revolutionary march of the speed campaign, the grand Chollima march.

Our country advancing dynamically under the red banner of the three revolutions has a firm guarantee for further hastening the complete victory of socialism and promoting the cause of national reunification.

Junior Friendship International Judo Competitions of Socialist Countries Held in Pyongyang

The 1976 junior friendship international judo competitions of socialist countries was held in Pyongyang for four days from December 12 to 15.

Participating in the competitions were judoists of the Democratic People's Republic of Korea and those from the German Democratic Republic, the Romanian Socialist Republic, the Mongolian People's Republic, the Bulgarian People's Republic, the Hungarian People's Republic, the Czechoslovak Socialist Republic, the Republic of Cuba, the Polish People's Republic and the Union of Soviet Socialist Republics.

The competitions greatly contributed not only to developing the judo techniques of the socialist countries but to further strengthening the friendly ties between the peoples and sportsmen of these countries by drawing on the successes and experiences gained in training up-and-coming champions.

By employing effective tactics of ideological battle, fighting spirit, speed campaign and technique as indicated by the Party Centre, our boys won 3 trophy cups and 3 gold medals, 4 silver and 3 bronze medals, thus once again demonstrating the might of the Juche-based sports which developed under the warm care of the respected and beloved leader Marshal Kim Il Sung and the glorious Party and adding lustre to the honour of their being the youth of Chollima Korea.

The results of foreign teams are as follows:

GDR—1 trophy cup and 1 gold medal, 1 silver and 2 bronze medals; Romania—1 trophy cup and 1 gold medal, 2 bronze medals; Mongolia—2 bronze medals; Bulgaria—1 trophy cup and 1 gold medal, 2 bronze medals; Hungary—1 trophy cup and 1 gold medal, 3 bronze medals; Cuba—1 bronze medal; Poland—2 silver and 3 bronze medals; and the Soviet Union—3 trophy cups and 3 gold medals, 3 silver and 2 bronze medals.

Prizes in the name of the organizing committee were awarded to Han Il Ryong of the DPRK team and Luis Navia Hernandez of the Cuban team in recognition of their distinguished judo technique exhibited at the competitions.

Japanese Reactionaries Must Stop Obstructing Korea's Reunification

Japanese Reactionaries' Nefarious Moves Designed to Obstruct Korea's Reunification

These days Japan is in the throes of an obstruct-Korea's reunification campaign launched by her reactionaries.

According to foreign dispatches, the Japanese reactionaries are now advocating the theory of maintaining the US troop occupation of south Korea. They prattle that in order to preserve the "balance of strength" on the Korean peninsula US troops should continue to remain in south Korea; US troop withdrawal from south Korea would destroy the "balance of strength" and "bring about disorder".

On December 16, the Japanese Prime Minister Miki reiterated his opposition to the withdrawal of US troops. He said that as "peace on the Korean peninsula is preserved by a delicate equilibrium of strength, it is not good to immediately break the present equilibrium."

Earlier, Foreign Minister Kosaka, Ambassador to the United States Togo, Under-Secretary of the Defence Agency Maruyama and Ambassador to south Korea Nisiyama and other high-ranking officials of the Japanese reactionary government harped on the same string.

What attracts the serious attention is that recently these reactionaries had talks with a number of countries in the Asian and Pacific regions to create "world public opinion" in favour of their policy of opposing US troop pullout from south Korea and preached them to join in their projected enterprise.

This clearly shows the extent of their reckless criminal acts in opposing the Korean people and obstructing Korea's reunification.

Their recent utterances are a vicious attack on the Korean people who are struggling for the independent and peaceful reunification of the country and an undisguised challenge to the Japanese people and other peaceloving people throughout the world who want peace in Korea and her peaceful reunification.

As everybody knows, US troop occupation of south Korea is a basic factor menacing peace in Korea and Asia and a main obstacle in the way of the independent and peaceful reunification of Korea.

Therefore, the Korean people, and the broad sections of the world's people who support our people's righteous cause and treasure peace in Asia and the rest of the world are unanimous in demanding the withdrawal of US troops from south Korea. Reflecting the trend of the times the 30th UNGA session adopted a historic resolution that called for the withdrawal of US troops from south Korea. Today the peaceloving countries and peoples throughout the world are working hard to put this resolution into effect.

Under this very situation, Americans themselves express their intension to gradually withdraw their troops from south Korea. But, why do the Japanese reactionaries make desperate efforts, giving a challenge to the unbiased world public opinion and human conscience?

Behind this is the Japanese reactionaries' black-hearted mind to prevent Korean reunification and intensify aggression on south Korea to realize their domination over the whole of Korea.

The Japanese reactionaries have the vital stake in maintaining the military fascist rule of the Pak Jung Hi puppet clique that pave the way for unlimited exploitation in south Korea by Japanese monopoly capital.

The monopoly capital of Japan which penetrated deep into south Korea has turned south Korea into her commodity market, squeezes 90% of colonial profit from the invested capital and exploits the south Korean labour with small wages, only one-fifth of the pay of Japanese counterparts.

From this, the Japanese reactionaries want the permanent stationing of US troops in south Korea and the permanent division of Korea in an attempt to keep hold on south Korea as their market, capital-dumping base and supply base of cheap labour. They penetrate even into military fields of south Korea and are trying to realize an wild ambition to invade the whole of Korea, using it as a stepping stone.

Their vicious plot is borne out by a "new defence programme" worked out recently by the Japanese government. They say the programme was drafted by taking into consideration the "changed situation" in Korea. The Japanese reactionaries' advocacy of continued occupation of south Korea by US troops under the guise of "balance of strength" is precisely aimed to cover their aggressive design.

Historically the Japanese reactionaries are one of those who have engaged in aggression on Korea.

But, far from thinking of so many crimes committed against the Korean people, they are weaving vile plots to impose new calamities upon them. We Korean people are very indignant at their reckless acts.

We resolutely denounce the Japanese reactionaries for their criminal acts.

If they continue to pursue an anti-Korea policy, they will never escape the stronger denunciation from the Japanese people and other peace-loving people all over the world, to say nothing of the Korean people, and their policy will only make their position more difficult.

The Japanese reactionaries must give up their fantastic dream, highly anachronistic, sadly outdated, and stop following a hostile policy towards the Korean people.

Li Jin Su

Foreign Public Sharply Criticize Japanese Reactionaries Opposing US Imperialist Aggression Troop Pullout from S. Korea

Today the reckless acts of the Japanese reactionary government authorities opposing US imperialist aggressor troops' pullout from south Korea are evoking great indignation, protest and denunciation from world public opinion including Japan.

Referring to the Japanese reactionary government's advocation of prolonged occupation of south Korea by the US army under the guise of "maintaining the balance of strength", Matsumoto Zenmei, Chairman of the Foreign Policy Committee of the Japan Communist Party, said:

This advocacy is meant to get internally and externally a juristical ratification of the continued stationing of the US army which throws the greatest obstacle in the way of the independent and peaceful settlement of the Korean question in defiance of world public opinion and to reveal again the intention of the government of the Liberal Democratic Party to follow a Japan-US military alliance first policy. We can never overlook its grave remarks which intend to put into full operation the integration of Japan-south Korea military system and US-Japan-south Korea military alliance.

In his statement the Secretary-General of the Central Executive Committee of the Japan Socialist Party pointed to the dangerous moves of the government of the Japanese Liberal Democratic Party which opposes the withdrawal of the US imperialist aggressor troops from south Korea and called on the Japanese government to radically change its hostile policy towards the Democratic People's Republic of Korea. There followed the publication of a statement by the Chief of the Bureau of International Affairs of the Japan Socialist Party.

The Japanese government declared, he pointed out, that it would never desist from its position in consistently opposing the withdrawal of US troops from south Korea and would work to make Australia follow the same policy.

Then he added:

We are opposed to such stand adopted by the Japanese government. We strongly demand that Carter fulfil his US troop pullout commitments immediately.

The United States holds that she will reduce her troops in south Korea step by step but station her air force there continuously. The Socialist Party calls for complete pullout of US troops from south Korea. We call to account the Japanese government which does not want to see the withdrawal of US troops from south Korea and backs the anti-democratic Pak regime and request that it should rectify its erroneous attitude.

Similar statements of protest and denunciation came from "Support-Korean Nation's Reunification Conference", representatives of the Japan-Korea Association, the Director of the General Council of Japanese Labour Unions, and other people of broad public circles of Japan, Japanese paper "Akahata", Hungarian paper "Magyar Hiradp" and other papers all over the world.

Leaflets Exposing and Denouncing Bribery Scandal of South Korean Puppet Clique Scattered in Seoul

Many leaflets exposing and denouncing the bribery scandal of the Pak Jung Hi puppet clique and calling for punishing the dictatorial "regime" rotten to the core were scattered in the Ulji-ro street and in Segom-dong, Seoul, on the night of December 1, according to a recent issue of "Hyokmyong Chonson," the organ of the Central Committee of the Revolutionary Party for Reunification.

The leaflet headlined "Truth of the bribing operation vis-a-vis the US brought to full light" exposed the plan of the "bribing operation" worked out by traitor Pak Jung Hi in a secret room of "Chongwadae" on the eve of "Christmas" in 1969, its purpose, the "outline of the operation" and the "operation stage".

Written in the leaflet are words: "Chongwadae trembles with fear as the truth of the payoffs to the US has been brought to light!" and "What kind of punishment does Pak Jung Hi, the king of the international bribery scandal, deserve?" Also carried there is a cartoon showing the sorry sight of the traitor floundering in a quandary and satirizing the disgraceful acts of the gangsters fawning upon the US imperialists, his masters, and making payoffs to them.

Many people who read the leaflets that night expressed indignation at the crime of the puppet clique, the report added.

Much upset by this, the Pak Jung Hi puppet clique sent police bandits to search the passers-by and collect the scattered leaflets.

US People and Koreans in the US Hold Demonstration and Meeting in New York

The Committee for Solidarity with the Korean People, the "US-out-of-Korea Committee" of the Youth against War and Fascism, the Guardian Committee for Supporting Korea's Reunification and other anti-war and anti-fascism struggle organizations on December 10 staged a powerful demonstration in New York, according to a report.

The demonstration was participated in by a large number of US people and Koreans in the United States, who denounced the criminal acts of the US imperialists and the Pak Jung Hi puppet clique.

The demonstrators marched toward the south Korean puppet consulate through different blocks of the city, carrying streamers and placards bearing the words "Long live the independent reunification of Korea!" "US, get out of south Korea!" "US, renounce the hostile policy toward the Democratic People's Republic of Korea!" "Away with dictator Pak Jung Hi!" "Expel agents of the south Korean 'Central Intelligence Agency'!" "Release imprisoned south Korean politicians!" and "US, ship nuclear weapons out of south Korea at once!"

Cars and pedestrians stopped, and passers-by expressed support and sympathy for the just struggle of the demonstrators who marched vigorously, shouting slogans. They read handbills and appeals distributed by the demonstrators.

Carried in an appeal were a photograph showing south Korean puppet police bandits wielding rifles and bayonets and indiscriminately arresting guiltless people and words denouncing the US imperialists and the Pak Jung Hi puppet clique for their fascist suppression, "two Koreas" plot and new war provocation manoeuvres and demanding the withdrawal of the US imperialist aggression troops and mass destruction weapons from south Korea.

The demonstration was followed by a meeting.

Addressing the meeting, the Chairman of the Committee for Solidarity with the Korean People condemned the Pak Jung Hi puppet clique for arresting and imprisoning innocent people and inflicting penalties upon them with the encouragement of the US imperialists and stated that as long as the US troops keep occupying south Korea, the south Korean puppet clique's suppression will continue.

Once an end is put to the US troops' occupation of south Korea and to the US "aid," Pak Jung Hi the rascal will... meet his doom, he said. He called for waging a staunch struggle to bring earlier the day.

Read out at the meeting was a telegram of solidarity sent by the US West Region Committee for Solidarity with the Korean People to the attendants of the demonstration.

The telegram expressed firm solidarity with the demonstrators and called for conducting a vigorous nationwide signature campaign for the withdrawal of the US troops and nuclear weapons from south Korea and an end to the US "aid" to the repressive "regime" of Pak Jung Hi.

PAK JUNG HI FASCIST BANDITS ARE A CRIMINAL COMPLEX WHO DESERVE PUNISHMENT

The great leader Comrade Kim Il Sung has said:

"In south Korea today anyone who opposes the present south Korean rulers, whether he is a student or an intellectual or a religious man, is made a target of repression, a victim of 'Anti-Communism'."

Today the Pak Jung Hi fascist clique's outrageous acts against the people have become more pronounced.

On December 13, a "superintendent public procurators' meeting" was held under the auspices of top-level puppets—"Prime Minister", "Minister of Judicial Affairs" and "Attorney-General". Of course, the convocation of this meeting was at the instance of traitor Pak Jung Hi.

At this meeting puppet prime minister gave out a bombastic statement, intending to intensify suppressive measures and called on puppet public procurators to step up oppression against the people.

The meeting coincided with a trial farce the same day against democrat Kim Dae Jung and others involved in the "declaration for democracy and national salvation". They were given penalty heavier than that at the "Seoul district court". On the following day the wicked court officials did the same with poet Kim Ji Ha, on the strength of notorious "Anti-Communist Law", and confirmed the heavy penalties given to those Korean student youth in Japan including Paek Ok Gwang on trumped-up charges of being "spies".

These acts of the Pak Jung Hi puppet clique are another grave challenge to unbiased world public opinion unanimously calling for human rights and democracy and release of unreasonably detained patriots and democrats in south Korea.

This shows that the Pak Jung Hi puppet clique are fascist maniacs, rare to be seen elsewhere, with whom the entire Korean people and the honest-minded people throughout the world cannot live under the same sky, the most nefarious man-killer and the inveterate enemy of mankind.

When referring to the best-known man-hunters we cite Nero, Tojo and Hitler. But the Pak Jung Hi puppet fascist bandits outdid them in their savagery. These fascist man-killers are a criminal complex who richly deserve the people's judgement and punishment.

As for the people of political, academic and religious circles and students whom these guys try to punish, they are patriotic democrats who have resolutely fought for the democratization of society and national reunification and against the present colonial fascist ruling system or student youth with a strong sense of justice.

Their struggle will never be a punishable crime. This is a sacred undertaking of those who love the country and people and show concern for their future.

That is why the Korean people in the north and south and the world's peace-loving people have always extended support and encouragement to the just cause of the south Korean democrats and patriotic-minded people and strongly denounced the savage suppressive measures of the Pak Jung Hi bandits against them.

These days the Pak Jung Hi puppet clique have launched out on a fascist campaign against all progressives. Why?

This is because the Pak Jung Hi puppet clique cannot maintain their "revitalized" fascist dictatorship even a day without strengthening their fascist suppression and resorting to the vile strategem. This shows with particular clearity that they are now in the throes of acute crisis.

Now the Pak Jung Hi puppet clique who have tried to stamp out the south Koreans' struggle for democratic rights and national reunification with the help of bayonets and engrossed in all sorts of irregularities and corruption, have to run the gauntlet of the people's resistance and they are isolated internationally.

Particularly, as their offering of bribes to American masters was revealed to the public view, these guys have become the target of denunciation and curse from the south Korean people as well as the world's people and they are being driven even deeper into a blind impasse.

The recent premeditated court-room charade against democrats and patriotism-inspired students was aimed to remove all anti-"government" forces fighting for democracy and national reunification. By so doing, they obviously pursue the double aims—internally, to create horror atmosphere among the south Korean people in an attempt to make them desist from the struggle against fascism and for democracy and externally, to turn the attention of world public opinion of denunciation elsewhere and thus save their doom.

But this is nothing but a last-minute manoeuvre of traitor Pak Jung Hi and will not help him to preserve his rotten regime.

The Pak Jung Hi puppet clique's desperate efforts will only arouse a strong feeling of denunciation from public opinion, internal and external, and hasten their doom.

Hail Nepal's National Day

December 28 is the national day of the Nepalese people. On this occasion, the Korean people extend congratulations and greetings to the friendly Nepalese people.

The respected and beloved leader Comrade Kim Il Sung has taught:

"Failing economic independence, subordination to another country is unavoidable and freedom from colonial slavery is impossible."

The Nepalese people have achieved great successes in their struggle to consolidate the political independence of the country and build an independent national economy under the banner of anti-imperialism and independence.

The government and people of Nepal are directing great efforts to agriculture which holds an important place in the Nepalese economy.

The government has taken a series of measures to increase state investments in agriculture, undertake irrigation projects in different parts of the country, improve seeds, introduce advanced farm machines and expand arable land.

Thanks to the correct policies of the government and the labour efforts of the people, new modern industrial domains such as power, textile and foodstuff processing industries have been created in Nepal where home industry based on manual technique was predominant. Nepal depended on foreign countries for various consumer goods in the past but now meets their demand on her own.

Rapid progress has also been made in the field of education, culture and public health.

In the sphere of public health, 50 clinics were newly built last year. Hospital beds now amount to 2,000. The number of doctors also increased considerably. It rose from 1 per 20,000 population (25 years ago) to 1 per 4,000.

Our people rejoice over the great successes gained by the Nepalese people in the building of a new society.

Externally, the Nepalese government is pursuing the non-alignment policy and striving to develop the relation with other countries on the principles of independence and equality.

Especially to be noted here is the fact that the Nepalese people express deep understanding of and sympathy with the Korean people's struggle for the independent and peaceful reunification of the country.

An example is furnished by the fact that the Nepalese Committee for Supporting Korea's Reunification was formed in Kathmandu in November last.

The Korean people who value friendly relations with the Nepalese people sincerely wish the Nepalese people greater successes in their struggle to build a new society under the leadership of Birendra Bir Bikram Shah Deva, the King of the Kingdom of Nepal.

South Korean Lawyers Strongly Assert Innocence of Publishers of "Declaration for Democracy and National Salvation"

Pak Se Gyong, a south Korean lawyer, strongly held that the "declaration for democracy and national salvation" grew out of the democratic desire and its publishers are innocent, according to a foreign press report from Seoul.

He said this in his final argument for the defendants at the fascist trial of the publishers of the "declaration for democracy and national salvation" held on December 17 at the puppet Seoul high court. He said that the present "revitalized constitution" is an illegal one cooked up by force and that the "emergency measures based on it are illegal".

It was reported that the 18 publishers of the "declaration for democracy and national salvation" submitted a "motion of challenge" to the panel, declaring that they would not comply with the trial by the fascist cutthroats, protesting against the latter's refusal to allow the witnesses demanded by them to appear in the court. This notwithstanding, the fascist bandits forced the trial, shamelessly mumbling that it was an "urgent trial".

Beside Pak Se Gyong, eight lawyers argued for the defendants, unanimously denouncing the unwarranted outrages of the Pak Jung Hi fascist hangmen and persisting in claiming the innocence of the publishers of the "declaration for democracy and national salvation".

Japanese Papers Expose Trial Farce of Pak Jung Hi Fascist Bandits

Japanese papers on December 13 and 14 highlighted reports from their Seoul correspondents that the south Korean puppet clique demanded heavy penalties up to ten years in prison for 18 personages who published "the declaration for democracy and national salvation," according to a KNS report from Tokyo.

Papers said that those driven into a corner at the trial were not the "defendants" but the puppet clique who held the trial.

Reporting about the trial, "Yomiuri Shimbun" said that, refuted and pressed hard by the "defendants," the hangmen hurriedly walked out of the court and that, deriding the disgraceful act of the hangmen, a "defendant" loudly shouted "What kind of trial this is!" The paper added: "The gallery responded to it and thus the court became boisterous and was filled with discontent and resentment."

"Mainichi Shimbun" wrote that the scheme of the Pak Jung Hi puppet clique to bring charges against the "defendants" was frustrated and, therefore, the trial ended as a vapid "trial unworthy of the name".
